Dear Members and Supporters,

The holidays are behind us and hopefully everyone has recovered from holiday burn out and are still on track for your new year resolutions. We are also halfway through the 2023-2024 NEOK ASHRAE Society Year and still have some great meetings planned. This February we are back to chapter meetings at the first Wednesday of the month, which will be the 7<sup>th</sup>, and our speaker will be Kirby Lee with Johnson Controls, for more information on this speaker see the CTT article in this newsletter. Also, February’s meeting theme is Membership Promotion so bring a new guest. Hope to see you and a guest there.

On the National level we had a good turn out from our chapter at the Winter ASHRAE Conference and expo in Chicago. Although I could not make it this year I have heard lots of good reports about it. The next society conference and expo will be the 2024 Annual Conference in Indianapolis June 22-26. If you are interested registration will open in March, so check the then.

Chapter Regional Conference (CRC) is April 25<sup>th</sup> - 28<sup>th</sup> In Arlington, TX just a short drive away. The Region VIII CRC is a conference dedicated to bringing together members from across our region to discuss the latest developments in ASHRAE chapters. The conference will have a variety of speakers, workshops, and networking events to help you stay up to date with the latest trends in the industry. Also, next year will be Tulsa’s year to host the Region VIII CRC so this will be a good opportunity to get some insight on the operation of the regional conference to prepare for our year. Don’t miss out click the link below to register. [HOME | ASHRAE Region 8 CRC \(r8crc.com\)](#). Fill free to reach out me or our officers if you have any questions or would like to get involved in our chapter.

## CHAPTER TECHNOLOGY TRANSFER/PROGRAMS

By Michael Floyd

Thank you to everyone that was able to make it for our first ASHRAE meeting of 2024! I hope everyone found David's presentation on "Driving Hospitals Towards Net-Zero" to be very useful. I'd like to thank David for being willing to take time out of his busy schedule to present at our chapter's January meeting.

For our next chapter meeting, we'll be hosting Kirby Lee. Kirby will be speaking on "The Morning Start Up with Mission / Purpose". Kirby has over 23 years of experience working in the Architecture/Engineering/Construction (AEC) world from a variety of roles specifically focused on HVAC as a Contractor/Owners Representative/MEP & Energy Engineer/HVAC Equipment Sales. He has spent the four years developing a specialized and process-oriented Leadership Development system called the Lion Attitude. He holds a Bachelor of Science in Mechanical Engineering from North Carolina State University.

For a glimpse into the future, I'd like to encourage everyone to block off a small portion of their day on March 6<sup>th</sup> for our ASHRAE meeting, where we'll be welcoming Kirk Phipps.

GOVERNMENT AFFAIRS

By Chad Smith

As I mentioned before, right after the first of the year is when things start really picking up for the Government Affairs Committee.

Coming up in February, we will be celebrating National Engineers week which is February 18-24<sup>th</sup>. We will be working with the Student Activities committee to promote STEM education in local public offices and public schools. We are in the process of securing a Mayoral proclamation from the City of Tulsa recognizing the engineering profession and our chapter's contributions to continue to promote it. We are also working with the Central OK chapter to secure a similar proclamation from the Governor.

Also, we are trying to collaborate with our governmental outreach with Engineers Week. **We have tentatively scheduled our State Capitol outreach visit for Thursday, February 22<sup>nd</sup>.** We are still confirming the legislation schedule as we want to make sure we will be visiting on a day when we can maximize our meetings. We will be putting together our group who will travel to the Capitol and join with the Central OK chapter members down there to meet with our elected legislators to promote ASHRAE and the HVAC industry. I encourage you all to plan to join us. We will provide talking points and it is a very laid-back discussion as you are talking to your elected official, and they want to know what is important to you.

Please feel free to reach out to me with any questions you may have and let me know if you would like to attend. Look forward to a great visit.

**ELECTRONIC COMMUNICATIONS**

By Bryce Beall

This month we are feeling so thankful for Webex! Thanks to everyone who came out to our chilly meeting, but also thank you to everyone who took advantage of our Webex option! It was great to see you all. We will continue to offer Webex options for our monthly chapter meetings.

As Women in Construction week approaches, the Communications team will be partnering with some other local organizations to promote events in town! We hope you will try to stop by some of these events and network with some of our other Construction Industry friends.

Be sure to keep an eye on the website for upcoming events and connect with our social media to make sure you don't miss anything! We are active on Instagram and LinkedIn! Do you know someone in the NEOK ASHRAE Chapter that has gone above and beyond? Find a cool HVAC joke or picture? Maybe you are part of another organization having an event and would like some ASHRAE participation? No matter what, if you would like anything posted on the website or our social media sites, please fill out this [form](#) and we will get it posted!
